

**ENTERPRISE CONTENT MANAGEMENT SERVICE**

**Make it simple**

Deliver results by providing your users with the combined power of Microsoft Cloud functionality and Cohesion's simplicity and Enterprise benefits.

**Make it work**

Make better use of your information assets by using a unique blend of pre-built resources, templates, designs, security controls, processes and integration capabilities.

**Keep it working**

Ongoing business alignment through Cohesion ensures your organisation maximises its investment, remains relevant and transforms data into insight.

**Manage your risk**

Cohesion ensures the appropriate controls are in place to empower your people while protecting your business, information and reputation.

**Resource Hub**

Enhance user experience and deliver immediate value using the library of pre-built assets in Cohesion's Resource Hub.

**Assurance**

Keep your solution current, business-centric and well used. Adopting Cohesion assures your Microsoft Private or Public Cloud investment.

**Empowered users**

Ensure comprehensive management of information over its life, consistent user adoption and leading functionality and usability.

**Manage risk**

Safeguard your information across borders utilising Cohesion's security framework of policies, processes and technologies.

**Microsoft Cloud**

**Cohesion**

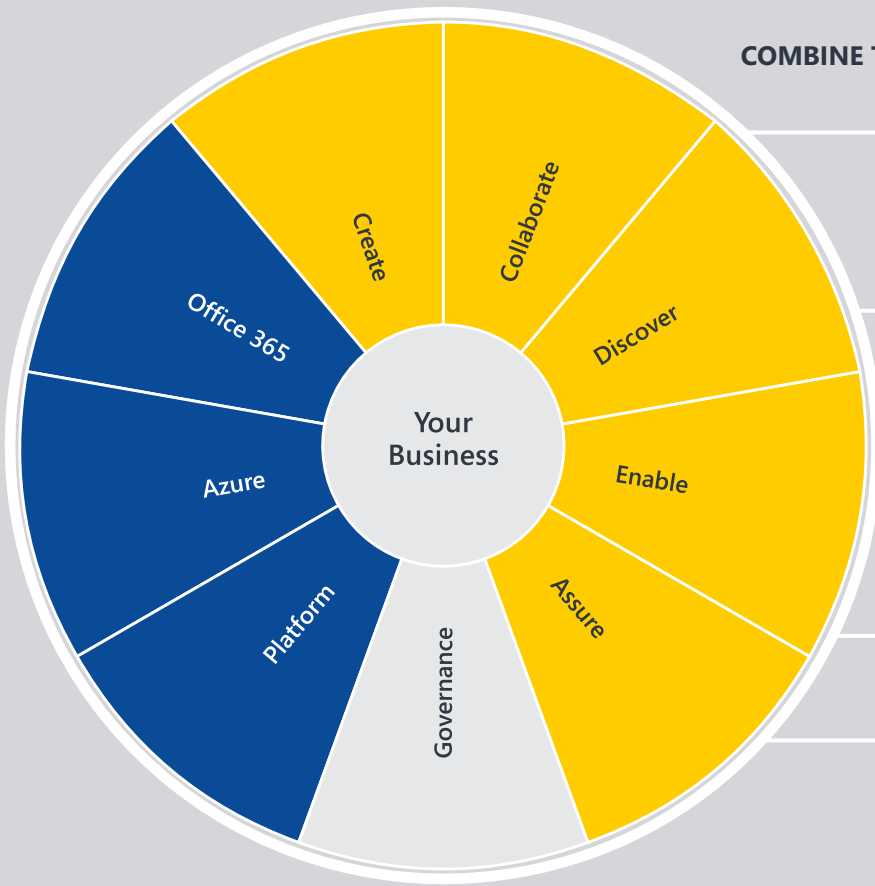

- Technology Toolbox
- Familiar User Experience
- Secure
- Data

- Configured for business
- User & Business Productivity
- Planned & Managed
- Information & Knowledge

Our track record of success in Cohesion is based on what our clients see as a highly effective and user-friendly system, delivered through a standard approach and strong subject matter expertise.

Cohesion delivers an enhanced search experience and user-centric design with proven experience in migration, integration, cloud, identity and security. This is all supported by a lifecycle and evergreen approach to the business effectiveness of the system and its technical components.

**COMBINE THE BEST OF MICROSOFT & COHESION**

Choose the scope and degree of your solution by harnessing the best of Microsoft with the business outcomes of Cohesion.

Cohesion is designed to maximise your Microsoft licencing with service extensions to meet business requirements.

Greater ongoing business value with strategic platform choice, evergreen guidance and adoption services.

Cohesion is available on Private, Government and Public Clouds.
